

INTRODUCTION TO DINET COMPANY

Located in Torino (North West of Italy), Dinet Srl is specialised in the production of spare parts for Voith DIWA and ZF Ecomat gearboxes of buses, in alternative to the original parts.

Dinet Quality System is certified according to UNI EN ISO 9001:2008 since 2002.

Since 1999 Dinet have been supplying its products to the main Italian Companies of public transport (listed in our website) and to many other customers (distributors, workshops, etc.) around the world.

Dinet's products are characterized by:

- full interchangeability to the originals
- comparable performance and average duration.

Main features of Dinet's products are:

- high and robust quality over time
- lower prices if compared to the prices of the original parts
- immediate availability ex-stock
- warranty cover of 1 (one) year

Dinet can also supply GENUINE Voith and ZF parts at competitive conditions.

Dinet's website www.dinet.biz contains more details about our company, our products and our customers.

Dinet also deal with original turbochargers (branded Garrett, Holset, KKK, Schwitzer) for every automotive applications (car, truck, bus, heavy duty machinery, etc.).
